

# Quentin LE BOULCH – 23 years old

Seeking Full-Time Data Analyst Position - Available from September 2025

Currently a Data Manager (Apprenticeship) at Thales Defense and Mission Systems and holder of a Masters degree in Data Analysis and Economics from Université Nice Côte d'Azur. Proficient in data analysis, visualization, and automation, I am eager to contribute my skills to innovative data driven projects

## PROFESIONNAL EXPERIENCE

2024-  
2025

### Data Manager (Apprenticeship) – Thales DMS, Mérignac

- Developed a Proof of Concept (POC) and KPIs using Power BI for client demand management
- Defined KPIs in collaboration with business teams.
- Conducted data audits for business processes, ERP, and data modeling.
- Automated tasks and processes using VBA, Power Query, and Python.
- Contributed to defining data needs for the CSS Data Stack.
- Performed exploratory statistical analysis for repair forecasting (Python, statsmodels, pandas)

### Other Professional Experience

2022-  
2024

### Client Advisor (Student Contract) – La Banque Postale, Nice

- Welcomed and assisted clients with their banking needs.
- Managed routine operations (mail and parcel services).
- Ensured high-quality service to enhance client satisfaction.
- Adhered to compliance and security procedures.

## ACADEMIC PROJECT

2024

### MASTERS THESIS– Employment Opportunities and Entrepreneurship

- Analyzed the relationship between unemployment and entrepreneurship using empirical data.
- Applied quantitative methods to process socio-economic data with Stata.
- Conducted a literature review on employment dynamics and business creation.

## EDUCATION
